

PV-57 SV Nozzle cabinet, grey -

PV-57 SV Nozzle cabinet, grey -

The door of the pillar fire hydrant is equipped with a special lock with a breakable lock protector. The cabinet (SV) with manual valve includes 2 hose guides, U-piping (Cu 28) and 1 shut-off valve. The empty cabinet (IV) only contains 1 hose guide. All pillar fire hydrants can be paired with a hose reel. Cabinets with a shut-off valve can be paired with fire hydrant reel PV-23 or PV-60. Nozzle cabinet delivered without equipment can be paired with, for example, fire hydrant reel with automatic valve PV-23A. Model PV-57 has space for a fire extinguisher.
